

Music Conversations - May 2016

-In your opinion, what is the role of music in worship and in the full complement of ministries/programs of our congregation?

-What motivates your participation in music ministry?

-What is it that the music program does really well and that you value most highly?

-What might get in the way of your continued participation in the music program?
Or what keeps you from being involved as fully as you might like to be?

-What is your greatest concern as the congregation works through the transitions due to the departure of our long-tenured Music Director?

-What musical groups, styles, forms and genres would you like to see more of? This could be something we have previously tried, or something new you'd like to introduce.

-Where do you imagine First Church's music ministry to be in three to five years?
